WHO ARE COGNISOFT?

CogniSoft have been at the forefront of digital solutions for the skills and employability sector for almost four decades. Their journey began in 1986 with the development of a case management system for the Job Training Scheme (JTS), followed shortly by solutions for the Youth Training Scheme (YTS) and Employment Training Scheme (ETS).

Recognising the overlap in programme needs, CogniSoft combined these systems in the early 1990s to create YETI (Youth and Employment Information System), a milestone that continues to underpin their offering today. Over the years, YETI has evolved to a platform supporting providers of Learning, Skills and Employability across the UK. Today, over 3 million individuals are supported by CogniSoft's systems, across 250 provider organisations.

WHAT DO THEY OFFER?

CogniSoft's YETI comprises of a full end to end learner management system, enabling providers to seamlessly manage compliance and claims, learners to engage and track their own learning journey, employers to access real-time learner data, track progress through visual dashboards, manage invoices, and communicate securely, all within one branded platform, while ensuring quality and accountability

Key Features include:

- Management of any Learning and Skills Contract with funding rules built into the data entry pages
- Comprehensive funding and compliance tools – ensuring data accuracy and quality
- Inbuilt Reporting suite and customised reporting – providing real-time data insights to manage your business
- Timetabling & Attendance – simplifying delivery planning and learner tracking
- AI integration to improve automation of tasks and workflows
- Automated communications – integrated SMS and email messaging with full audit trails
- Employer Engagement tools – CRM-style functionality for managing employer relationships, tracking interactions, and reducing 'all angle' approaches
- Ongoing technical support and system development

YETI's Employability Features include:

- Manages any employability programme including national DWP and Local Authority funded programmes
- Vacancy Matching – a powerful two-way matching system connecting candidates and opportunities efficiently
- Action planning and Assessment to evidence distance travelled

CogniSoft's solutions are designed to reduce administrative burden, improve accuracy, and enhance the overall learner and employer experience.

HOW DOES COGNISOFT BENEFIT FROM GMLPN MEMBERSHIP?

"Being part of GMLPN allows us to collaborate with a strong network of training providers and stakeholders across Greater Manchester. The opportunity to share best practice, stay informed on sector developments, and build meaningful partnerships is invaluable to our work."

Emma Cook – Managing Director

WHAT'S GOING WELL?

CogniSoft continues to grow its presence within the skills, apprenticeship and employability sector, supporting providers to navigate ever evolving requirements. Their long-standing experience, combined with continuous innovation, ensures their systems remain reliable, flexible, and aligned with sector needs.

ASK TO THE NETWORK

As the call to further align skills and employability intensifies and the importance of embedding employability within education continues to grow, YETI is the perfect solution to manage multiple programmes from one single system.

CogniSoft are keen to connect with providers looking to enhance their digital delivery, improve efficiency, and strengthen employer engagement. They are particularly interested in collaborating on innovative approaches that improve learner outcomes and streamline programme management.
